

NEW MEXICO PRIMARY CARE TRAINING CONSORTIUM

August 5th, 2021

Gallup, NM

BACKGROUND

The New Mexico Primary Care Training Consortium is a 501 c3 not-for-profit organization based in Silver City, New Mexico.

Its Mission is to improve the quality of essential health services by supporting existing and developing new training opportunities to increase the primary care workforce in New Mexico.

Its Vision is for New Mexico to be an innovative leader in training family medicine physicians, psychiatrists and other primary care providers working with the most underserved populations in high quality, integrated primary care health systems.

UNM:
DEVELOPMENT
OPPORTUNITIES

Current Opportunities

- Expand Psychiatry (possibly with Gallup)
- Expand Pediatrics
- Expand Internal Medicine

OTHER OPPORTUNITIES

- Regional Rural Training Programs – North Central NM
- Presbyterian Health Care Services
 - Expand Rotations
 - Pre-Development Period Family Medicine and / or other Programs
 - Urban and Rural Potential
- Eastern NM – Pre-Development Period

PSYCHIATRY DEVELOPMENT

LAS CRUCES

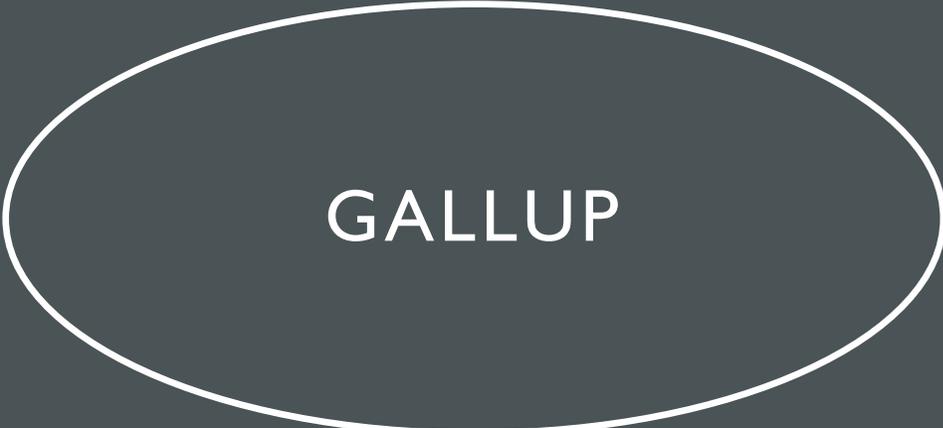

Multiple Community-based
Provider Partnership

Progress

- Creation of community steering committee
- Two rounds of HSD GME grant funding
- Development of financial pro forma
- Collaboration of community behavioral health partners for rotation sites.
- Collaboration with UNM to develop didactic curriculum and faculty capacity
- ACGME application has began and looking to submit by the end of 2021

Challenges

- Lack of teaching faculty in community

GALLUP

Rehoboth McKinley Christian HCS

Progress

- Obtained HSD GME funding
- Creation of community steering committee
- Preliminary Pro Forma
- Starting recruitment for Psychiatry faculty
- In talks with UNM to create a 1+2 (2+2) Rural Training Track for Psychiatry

Challenges

- Shortage of psychiatric faculty
- Lack of other behavioral health workforce in the community

HOW NMPCTC HELPS

Provides Technical Support for HSD funding of development activities –

- State and Federal Funding Applications
- TA to Fund Recipients (Application development, Faculty Capacity Development, Resource Assistance, Financial Consultations)
- Development of statewide faculty and resident Placement Office.

Advocating for Medicaid State Plan Amendments

- Support all Hospitals providing accredited training programs receive Indirect Medical Education
- Improve payments to providers for Direct GME payments and establishing incentives for Primary Care and Psychiatry residency development (4-1 federal match)
 - \$100,000 per primary care and psychiatric resident
 - \$50,000 for all “other” residents
- We are recommending a \$160,000 per resident payment for FQHCs and RHCs as well as policy changes allowing GME payment to IHS facilities and psychiatric hospitals

Current State Funding \$200,000
